Washington. April 6.—Judge Sheldon, of Connecticut, lately said there is a large element in his state favorable to silver. The silver leaders will wage an aggressive campaign from this time on.

"We are bound to win if we unite." said Senator Stewart tonight. "It is only through the division of the silver men that the gold element hopes to maintain its supremacy. The impossibility of converting the gold leaders of the two old parties to bimetallism is kecoming more apparent every day. Hohenlohe's Birthday.

During the bustle of the Bismarck birthday celebration, the birthday of Prince Hohenlohe, who was born March 31, 1819, was almost overlooked, but the emperor and empress took pains to do him honor. They both paid the chancellor a lengthy visit, and the empress presented him with a splendid bouquet of roses and the emperor made him a present of a sold cigar case adorned with the imperial monogram in damonds. It was noticed on Prince Bismarck's birthday that Berlin displayed more flags and decorations than upon the occasion of Emperor William's birthday. Nearly every American house in town flew the every American house in town flew the stars and stripes. The Royalist district was almost bare of decorations. An especially pleasant side of the celebra-tions has been the institution of a num ber of benevolent Bismarck funds.

Commercial Congress. In commercial and financial circles the chief interest has been directed to the extraordinary assembly of the Ger-man commercial congress, held on Tuesday. A speaker contended that the existing depression in husbandry naturally followed the exceptional rise in the value of agricultural property. It will be also maintained that com-merce and industry had as much right merce and industry had as much right as husbandry to speak on the question of currency and an an'i-bimetaille resolution was adopted. The bimetaillists in the meanwhile were not idle, and Count Burbach, supported by forty-three of his colleagues, introduced a motion in the upper house of the Prussian diet, urging the government to require the chancellor to lose no time in taking steps calculated to lead to in taking steps calculated to lead to an international regulation of the currency question, with the final object of securing international bimetallism. The motion was referred to a com-

San Diego, April 6.-The case of the three Americans, Joseph C. S. Carter, William Carney and D. A. From another, but entirely authentic source, it is learned that whatever the decision of the court may be, the presidecision of the court may be, the president will not call an extra session of Congress, and even should the decision declare the law wholly unconstitutional, the president will adhere to his determination not to call Congress together, and will so announce in a public declaration. All the efforts to secure from members of the supreme court

from members of the supreme court either an authoritative confirmation or denial of the Chicago Tribune's publication, prove unavailing.

Senstor Voorhees, chairman of the finance committee, when told of the publication today, said: "It may be that a portion of the law may not be sustained. I consider there is a post that a portion of the law may not be sustained. I consider there is a possibility of such a result, but I do not know a thing, and do not believe that anyone outside the court knows a thing about it. But suppose it should be true that a portion of the law regarding rents and municipal bonds should prove to be, in the opinion of the court, unconstitutional, the law will not be materially impaired. It will still afford an immense revenue. The estimates made are entirely too low on the revenue which would be derived from the law as a whole. "Leaving out the consideration of the question of tax on bonds," he said, "the rent is the most important one when we consider that a third of the farmers in the country are renters; that 52 per cent, of the entire population of the country at large, and 77 per cent, of the people living in the cities of over 100,000 population are also thus classed, and in New York city the percentage of renters is 94.
